CipherLab Receives Network Products Guide 2008 Product Innovation Award

CipherLab's 9400 Industrial Mobile Computer wins in the mobile/wireless category

PLANO, TX — May 19, 2008 — CipherLab, a leading innovator in Automated Identification and Data Capture (AIDC) for the retail, warehouse and distribution markets, today announced that Silicon Valley Communications publication Network Products Guide has selected its 9400 Industrial Mobile Computer for a 2008 Product Innovation Award. This annual competition recognizes vendors with groundbreaking products that set the bar higher for others in all areas of information technology.

The CipherLab 9400 was the only hardware selected as a winner in the mobile/wireless category. Introduced in late 2007, the handheld industrial mobile computer features:

- Support for Microsoft® Windows® CE 5.0
- Compliance with all popular wireless platforms, including Bluetooth®, WiFi and Quad-band EDGE WAN
- Built-in 2 Megapixel digital camera

“The goal of any product innovation must be to effect a positive change,” said Rake Narang, editor-in-chief, Network Products Guide. “The CipherLab 9400 Industrial Mobile Computer brings improvements in multi-platform connectivity, design and affordability to the retail, warehouse and distribution markets.”

About Network Products Guide Awards

Network Products Guide published from Silicon Valley is a leading provider of products, technologies and vendor related research and analysis. You will discover a wealth of information in this guide including product innovations, roadmaps, industry directions, technology advancements and independent product evaluations that facilitate in making the most pertinent technology decisions impacting business and personal goals. The guide follows conscientious research methodologies developed and enhanced by industry experts. To learn more, visit www.networkproductsguide.com

About CipherLab

CipherLab is a global leader in the design, manufacture and marketing of AIDC (Automatic Identification and Data Capture/Collection) products and systems. The company's award-winning mobile computers and scanners are integrated into the networks of some of the world's best known government and logistics, grocery, manufacturing, retail, distribution, agricultural and healthcare companies, helping them run more efficiently and effectively via "anywhere mobility," onsite and on the road. CipherLab Solutions Certified value-added resellers and integrators further extend the company's expertise, particularly within the small- to medium-size business market. Headquartered in Taipei, Taiwan with North American offices in Plano, TX and operations in EMEA, the Americas, Asia Pacific and China, CipherLab is publicly traded on the Taiwan stock exchange (Taiwan OTC: 6160). More can be found on the web at <http://www.cipherlab.com>.
