

PRESS RELEASE

CipherLab's Industry-leading Product Quality Results in Extended Warranties for AIDC Scanner Product Line

New program combines reliability with economical price points to guarantee customer value and ROI

Taipei, Taiwan — Nov 27, 2006

CipherLab, a leading innovator in Automated Identification and Data Capture (AIDC) for the retail, warehouse and distribution markets, today announced extended product warranties for tethered and wireless barcode scanners. CipherLab's product quality, coupled with its reliability and affordability, now offers the best value to resellers and distributors looking to deliver data capture solutions to customers that meet a broad spectrum of needs, ranging from a small business at entry level to the most complex, multi-facility installation.

Effective immediately, the following handheld, tethered products from CipherLab have extended warranties of five years:

- 1000 CCD Barcode Scanner, the world-leading contact scanner for point-of-sale and manufacturing line scanning
- 1090+ CCD Barcode Scanner, with ability to scan longer barcodes up to 90 mm in width
- 1100 Linear Imaging Scanner, a rugged choice for retail, manufacturing, and healthcare applications
- 1105 Entry Level Linear Imaging Scanner, offering full features and ease of use

The warranty for the company's popular handheld 1166/1266 Bluetooth® Wireless Scanners have been increased to three years (warranty for 1266 laser engine is one year). These scanners are ideal for hard-working scenarios where extended range and up to 32,000 scans per battery charge are required.

These extended warranties apply to all scanners manufactured after September 1st, 2006.

"We've backed our confidence in CipherLab products with warranties that are a real value-add for our customers," said Stephen Gong, President of CipherLab. "It's just another example of how CipherLab strives to lead the AIDC industry on all levels: quality, value, reliability, ease of use and price."

About CipherLab

CipherLab is a global leader in the design, manufacture and marketing of AIDC products and systems. The company's mobile computers and scanners are integrated into the networks of some of the world's best known logistics, retail, distribution, government installations and healthcare companies, helping them run more efficiently and effectively onsite and on the road. Headquartered in Taipei, Taiwan with North American offices in Plano, TX and operations in EMEA, the Americas, Asia Pacific and China, CipherLab is publicly traded on the Taiwan stock exchange (Taiwan OTC: 6160).
