Please refer to the user manual on CD-ROM for details on using the scanner with BT Base.

Wall-Mount Installation

Step 1: Drill two holes on the wall.
Each 4.6 mm as the anchor body and centers spaced 34 mm apart.

**Step 2:** Push the plastic screw anchors into holes until they are flush with the wall.

Step 3: Drive the screws into holes and secure them snugly, but do not over-tighten them.

Step 4: Mount the base by sliding it over the screws.

Step 5: Apply the lock screw.

Step 6: Hook the scanner into the holder at a proper angle.

Step 7: Push down the scanner grip to seat it firmly.

Note: Detach the scanner in reverse order — pull up from the bottom of the scanner and move the scanner head away at a proper angle, say 75 degrees.
